## Professional Summary

Seeking a challenging role as a Java Full Stack Developer, where my expertise in front-end and back-end technologies can be leveraged to contribute to innovative software solutions, enhance user experiences, and drive the success of dynamic development projects.

## Skills

**Programming Languages:** Java, JavaScript, C, C++,Python

**Frameworks & Libraries:** Spring Boot, React.js, Express.js, Node.js

**Web Development:** HTML, CSS, Bootstrap

**Databases:** MySQL, MongoDB

## Experience

### Software Developer

Jun 2024-Present

#### *Eguidance labs*

- Developed full-stack web applications using Java, Spring Boot, React.js, and MySQL/MongoDB.
- Built and optimized RESTful APIs and worked with microservices architecture.
- Deployed applications on AWS Lambda and worked with Docker.

### Intern

Jun 2023

#### *Code alpha*

- This internship provided me with the opportunity to hone my technical abilities and put theory into practice in the field of web development.
- I was given three tasks,each of which tested me in a unique way.

## Projects

### Portfolio Website: <https://tfdw4l.csb.app/>

- This project contains assets for my personal portfolio website.
- The website showcases my projects, skills, and experience.

### Responsive Blog Website: <https://qgtkqf.csb.app/>

- This project is a responsive food blog website example that showcases various recipes, cooking tips, and food-related articles.
- The website is designed to adapt to different screen sizes and devices, providing an optimal viewing experience for users.

### Resume builder website: <https://54r9z4.csb.app/>

- This project is a Resume Builder website designed to help users create professional and personalized resumes easily.
- The website provides a user friendly interface that allows users to input their details and generate a well formatted resume.
